

VISOKOGRADNJA

Aktivnost Zagorje-Tehnobetona d.d. primarno je i intenzivno usmjerena na visokogradnju prema izgradnji trgovačkih i logističkih centara, stambenih i komercijalnih objekata, industrijskih građevina, hotelskih kompleksa, zračnih luka, bolnica, sportskih objekata i škola te raznih drugih objekata posebnih namjena, a rekonstrukcija i dogradnja također zauzimaju velik udio u aktivnostima.

Objekti se grade do potpune funkcionalnosti, najčešće prema modelu „ključ u ruke“, prilikom čega se uz građevinske radove odrađuju i koordiniraju obrtnički i instalaterski radovi te radovi na uređenju okoliša.
